REPORT OF LIBRARY AND MONUMENT COMMITTEE

To the Citizens of Acushnet:

The Committee appointed by the Town to build a Library and Monument have completed their duties and beg to give their report.

It was voted to use the original plan for the Library as submitted by Mr. F. A. Rousseau. Bids were asked on these plans. After these bids were received, they were so low that the Committee decided to reject all bids, and build a better and larger building, and instructed the architect to revise the plans. Bids were asked on the new plans and the low bidder, Mr. Jethro O. Ashley, was given the contract.

The Monument was selected after looking over a large number of designs. It was purchased from George A. Markey, New Bedford, and made and erected by the Florence Granite Company of Quincy.

The results of our labor are now seen, and we hope the citizens of Acushnet are pleased with our work.

We wish to thank the following for gifts to the Library:

Acushnet Grange for tree.

Mrs. M. J. Burke for flag.

Mrs. Thomas Hersom, Jr., for an electric clock.

The financial report will be found in the report of the Trust Fund Commissioners.

THOMAS HERSOM, Jr., *Chairman.*

FRANK P. CRANDON, *Secretary.*

REPORT OF ANIMAL INSPECTOR FOR TOWN OF ACUSHNET

To the Board of Selectmen of the Town of Acushnet:

I have inspected for the town 118 barns, 683 cattle, 146 young cattle, 2 oxen, 57 sheep and 54 pigs.

I have quarantined 3 cows with tuberculosis, two of whom were condemned. I have quarantined two dogs who bit persons and have also quarantined all the dogs in town for thirty days.

Respectfully,

HENRY A. JACKSON,,

Inspector of Animals.

FUND COMMISSIONERS' REPORT

To the Citizens of the Town of Acushnet:

The Fund Commissioners in presenting their yearly report are pleased to inform the citizens that the two major operations imposed upon them by the will of George T. Russell are practically completed, namely, the erection of the library and monument.

In 1930 the town decided to proceed with the task and named Messrs. Hersom, Crandon, Warren, Burke, Cormier, Hathaway and Reed as a building committee, who have for the past two years given unstintingly of their time and labor, the final result being two edifices which reflect credit upon the committee and one upon which the citizens of the town can look and point to with satisfaction and pride; also both structures stand as a silent testimonial to perpetuate the memory of one of Acushnet's most liberal and patriotic citizens, George T. Russell.

There are two questions that remain for your commissioners to answer in order to give full publicity to the doings of both the building committee and the fund commissioners, the first of which is: How was the money spent? Second, Where has the money gone? An answer to both these questions will be found in an itemized statement which is incorporated in our report.

The commissioners have had until now nine different funds to supervise. Full and complete financial statements of each one may be found in the report.

During the year with the coöperation of the Board of Selectmen, and the State Department of Public Works, we have drawn up rules and regulations and also placed No Park signs at the corner of Slocum, Garfield, and South Main street, and which we find have been a very great help to the public at large.

Summing up the various increased demands made upon this department under the present appropriation, it is the earnest endeavor of the police to run their department as economically as possible, but in order to afford the residents of the Town the protection they have a right to demand we feel that a substantial increase in our appropriation essential.

With the appropriation of last year it is costing your Town a little over a fraction of 54 and a 7th of a cent per capita per year for the protection of life and

property, which is very little as compared with some of the surrounding towns.

Telephone Clifford 2100, Day or Night.

Respectfully submitted,

OTTO W. MELZER,

Chief of Police.

REPORT OF THE BOARD OF HEALTH

*To the Officers and Residents of the
Town of Acushnet:*

The Board begs to submit the following report for the year ending December 31, 1931:

Immediately following the election the Board met and, after its new member, C. N. Kirby, was duly sworn into office, the following organization was perfected:

Chairman, Joel P. Bradford, M. D.

Secretary and Agent, Fred E. Wellington.

Inspector of Licenses, C. N. Kirby,

which organization has continued during the year.

Allen E. Weeks was again renominated for Inspector of Slaughtering and following his appointment was duly sworn into office.

In harmony with the prevailing effort for the strictest economy the Board has suspended the Dental Clinic and all other unnecessary activities thereby reducing its budget all possible, but in spite of this the appropriation was overrun a little over five hundred dollars. This was due to an increased attendance at the Bristol County Tuberculosis Clinic. However, over one-third of our appropriation comes back to the Town in subsidies from the State and rebates from other towns.

Comparatively few contagious diseases have required quarantine.

The following is the list of cases reported:

Diphtheria	7
Ophthalmia	2
Measles	2
Scarlet fever	2
Lobar pneumonia	2
Dog bite	2
Tuberculosis of lungs	2
Anterior poliomyelitis	1
Tuberculosis of spine	1
	<hr/>
	21

Number of deaths during the year 61.

The collection of garbage has been done very satisfactorily by Joseph Martin of Wing Road and we expect the same arrangement to continue.

On account of removal from town, Mr. C. N. Kirby offered his resignation to the Board at its last meeting and it was accepted with regrets by the remaining members of the Board.

Respectfully submitted,

JOEL P. BRADFORD,
FRED E. WELLINGTON,
C. N. KIRBY,

Board of Health.

REPORT OF THE SUPERINTENDENT

To the School Committee of Acushnet:

Mrs. Burt and Gentlemen:

The report of the superintendent of schools for the year ending December 31, 1931, is hereby submitted.

In presenting the budget to the taxpayers this year, I am going to divide it in two parts—in-town cost of schools and out of town school expense.

The out of town school expense includes tuition and transportation to the New Bedford High School, the New Bedford Vocational School and to the Bristol County Agricultural School. Over this budget the School Committee has no control. The expenses are set by the state and by the city where these schools are located.

The School Committee, realizing the need for the most rigid economy, has pared the in-town budget by the least possible figure commensurate with keeping the schools up to the required standard of school work necessary to fit the pupils for their preparatory school courses. There is not a cent of extra expense attached to the social or club work. This is all done by the principals and teachers in addition to their regular school duties.

When making the 1931 budget the Committee found it possible to close one room at the Marie S. Howard School and it was thought this would allow them to dispense with one teacher. However, at the beginning of school in September, the overcrowded conditions at Parting Ways School made this impossible as the number enrolled in the fourth and fifth grades made it im-

perative to add a teacher in this building. Over half of the pupils in town are enrolled at Parting Ways School. The other schools have their normal registrations.

Commencing with September the teachers were given a flat cut of \$75.00, this being one of the first communities in the Commonwealth to lower teachers' salaries. The teachers accepted the cut with a coöperative spirit and have continued to give as freely as before of their time and money to school, social and welfare work.

There is a prevailing notion in the minds of some that many teachers are out of work, and might be engaged at a slightly lower salary than is now being paid to teachers in service. On investigation it has been found that many of the teachers who remain unemployed have not received the highest ratings in their training schools and have had only indifferent success in the positions held since their graduation.

SCHOOL EXPENSES

The following is a statement of school expense in regards to the number of pupils:

High School tuition and transportation	\$11,840.07
Per pupil cost of students in High School, per year	174.11
At a per pupil cost per day we have	.92
Total amount raised for school purposes other than Vocational Training	57,355.00
Unexpended balance	159.25
Reimbursement by the state for the services of acceptably trained teachers	7,440.00
Deduction of High School Expense	11,840.07
Net cost of schools within the town	37,915.68
Per pupil cost per year	53.96

The cost of the in-town schools figured on a per pupil per day basis is as follows:

Teachers	.21
Text books	.005
Supplies	.005
Janitors	.03
Fuel	.01
Building Supplies and Insurance	.006
Repairs	.011
Transportation, within town	.008
Health	.0004
Control	.02

These figures are based on the average daily attendance.

Amount appropriated for Vocational and Segreganset Schools, tuition and transportation	\$14,131.00
Reimbursement from the State	4,265.92
Total cost to the town	9,865.08
Apprximate net cost per pupil per year	159.03
Approximate net cost per pupil per day	.80

This year, in March, on account of increased enrollment, the town should receive from the State for Vocational Schools, \$7,065.50.

These figures are approximate and are based on the average daily attendance for the school year.

The expense of pupils in the New Bedford High School is paid out of the regular annual school budget, that of the Vocational and Segreganset Schools out of a special appropriation for that purpose.

I do not feel that the school report would be complete without adding, for the parents, a few words on the daily classroom work.

Departmentalized classroom procedure has reached a very satisfactory stage in the public schools of the Town of Acushnet. This system allows a teacher to specialize on one major subject to which she is best adapted. Where classes do not change between periods, the unit plan is helpful to the teacher at the same time increasing the opportunity for child advancement in learning. The unit idea of teaching is an exponent of modern progressive education. This plan allows for individual differences and provides average work for every pupil in the classroom. The unit system in itself is far superior to other plans of days gone by.

In a truly departmentalized school system the pupils have different rooms for each major subject. Here in each respective room the teacher of a particular subject surrounds herself with supplementary materials which tend to round out the general knowledge of the child in that particular subject. Experience with this type of classroom procedure, by some of the leading educators of the country, has proven conclusively that it is of great value. We want our schools to be progressive. From year to year we include new ideas in our school system and thus improve the general character of our elementary education.

The School Board, at this time, extend their thanks to the Trust Fund Commissioners for supplying a complete set of geography maps, a complete set of historical maps, a set of the World Book Encyclopedias, a set of the Book of Knowledge, and ennumerable reference books on geography, history and science for each building in the town. Also for furnishing geography and history text books, making it possible for us to ask several hundred dollars less this year under this item.

Respectfully submitted,

CHARLES H. HOLMES,

Superintendent of Schools.

REPORT OF THE ATTENDANCE OFFICER

Mr. Charles H. Holmes,
Superintendent of Schools,
Acushnet, Massachusetts.

My Dear Mr. Holmes:

I hereby present my second annual report as attendance officer of the schools of Acushnet.

I have investigated twenty-four cases of school absences and have issued six home permits.

Respectfully submitted,

OTTO W. MELZER,

Attendance Officer.

Acushnet, Massachusetts.
December 31, 1931.

REPORT OF THE SCHOOL PHYSICIAN

Mr. Charles H. Holmes,
Superintendent of Schools,
Acushnet, Massachusetts.

Mr. Dear Mr. Holmes:

The closing of the year 1931 terminates, probably, one of the most trying years in the experience of a medical supervisor in the Acushnet Schools—depression, both actual and imaginary, coupled with the strictest economy, have interfered, somewhat, with our plans and work for the year.

Let us look at the brighter side,—for the first time we have in our primary grades an appreciable number of children having passed through the baby clinics and pre-school work with results beyond our fondest anticipation. During the medical inspection of the schools these children could readily be picked out without reference to their records. Realizing that the Superintendent of Schools and Mrs. Holmes have been such a factor in instituting and continuing these clinics, both by their active efforts and untiring interest, it is only just that your department should benefit by the result; and we feel sure that a continuation of these activities will be a great benefit to the schools.

We have added, this year, a few talks on physiology by which we hope to interest the older pupils in both better habits of life and postural, also personal hygiene habits. We regret that finances have not permitted continuation of dental work as the results are already becoming evident in glandular and digestive systems and

we hope that if town finances will not permit, some other source of finances may be discovered.

The results of labor and financial conditions have shown in a lowered resistance and under nourishment which we feel must be overcome by milk or some other food being made available to the weak and undernourished children. Unless some solution to this problem is reached we know that a later penalty will be exacted in invasion of tuberculosis, rickets, or other nutritional disorders.

In concluding, I would say that our work as yet has not shown marked retrograde results and we hope sincerely that this period of depression may soon end and our normal work may be again progressive.

Sincerely yours,

JOEL P. BRADFORD, M. D.,

School Physician.

Acushnet, Massachusetts.
December 31, 1931.

REPORT OF THE SCHOOL NURSE

Mr. Charles H. Holmes,
Superintendent of Schools,
Acushnet, Massachusetts.

My Dear Mr. Holmes:

Another year has past and gone into history, also the work done by the nurse and all those cooperating with her in school health work; but the fruits of that labor will be reaped in the years to come by our school children in the form of better health, greater happiness, and brighter mentality.

The largest undertaking in the work is the examining, with the school physician, of about 900 school children in our community, this work being done semi-annually. The result of this examination in the five schools are as follows:

TOTAL DEFECTS

Teeth	602	Thyroid Glands	93
Tonsils	563	Under-nourished	111
Heart	140	Posture	227
Lungs	238	Spine	7
Glands	380	Scalp	9

There were sixty children with no defects, about seven per cent of the total school population.

Considering the large number of defects in teeth it is unfortunate that the dental clinic could not have continued.

Equally important is the Tuberculosis Clinic conducted annually by the State Public Health workers with the assistance of the nurse. This work has been going on for several years. Each year different pupils are examined, X-Rayed, and given the tuberclin test and all who have previously been treated are re-examined. The "follow up" work on all these cases goes on indefinitely by the nurse.

Doctors from the State Department of Mental Hygiene held their annual clinic the first of the year. Pupils reported to be retarded in their studies are examined at the clinic and if they are found unable to do regular school room work are placed in a special class in which the work and studies appropriate to their condition are conducted. Considerable preliminary work, by the nurse, is necessary in investigating the environment and obtaining a complete history of each child at school and at home. These records and the assistance of the nurse at the clinic are essential and a valuable aid to the doctors in their examinations.

In addition to these various undertakings, and the "follow up" work of each, about one hundred twenty-five visits were made to the schools during the year, on request, mostly, of the superintendent, principals and teachers for minor ailments of the children and for first aid work.

Two school children were chosen by the nurse and sent to the Bristol County Anti-tuberculosis summer camp, at Attleboro.

In December about twenty-seven children of the lower grades were rounded up and provided with stockings and new shoes, also from a donation of a local organization a like number was helped in the same manner. About the same time the teachers and pupils of one school donated clothing, food, and money for one family, chosen by the school nurse.

In closing I extend my thanks to the superintendent, teachers, physician, parents, and all others, who have coöperated with me directly or indirectly in this noble and worthy cause of child welfare.

Very respectfully yours,

MARGARET HEAP, R. N.,

School Nurse.

Acushnet, Massachusetts.

REPORT OF THE SUPERVISOR OF MUSIC

Mr. Charles H. Holmes,
Superintendent of Schools,
Acushnet, Massachusetts.

Mr. Dear Mr. Holmes:

Music has been one of the latest Arts to reach maturity. So wonderful has been its achievements that, judging from analogy, it is hardly to be expected that the triumphs of Palestrina and Bach in church music, Bethoven in the Symphony, Handel in the Oratorio, Chopin in piano music, Mozart and Wagner in the Opera, and Schubert in the Song can be indefinitely repeated.

Those who look for a check in the progress of music must easily console themselves by thought that there is no sign of abatement in the spread of its beneficent influence.

An epoch of fuller knowledge and appreciation on the part of both musicians and the public seem plainly at hand. There can be no question that the sum of musical intelligence is vastly greater the world over than it was fifty years ago. The constant revision and refinement of method in music as in all education is an endless process. Performers, irectors and teachers find every day more encouragement for solid work.

To our Superintendent, Principals and efficient corps of teachers, I am greatly indebted for the splendid work all are accomplishing in music in our schools. At the close of each succeeding year I cannot help feeling very much elated over our accomplishments. All through the grades, from the first to the eighth, included, do I notice

a stronger desire to learn more of music which is indeed gratifying to me as your Supervisor. As I visit the different rooms of our schools, I cannot help being impressed with the pupils of even the first grade in their rote singing; of the boys and girls in the following grade as they begin with their first steps in music reading and, so on up through the various grades, to watch how a boy, who, perhaps, has never, up to this point, given much attention to music, will suddenly turn to it and tell, in many cases, how much he now enjoys it.

May I call to your attention the fine programmes given in the various schools at the last Commencements. At the Long Plain School was given "Washington's Birthday", an operetta in two acts, by Lina Loring. Plot of the play is as follows:

The "Cherry Tree" incident is of course included. The story is made up of what occurs in a late afternoon after school and the following morning on the way to school. The scene is out-of-doors, in the garden of Washington's home.
